“ The Denboba Family would like to share our sincere condolences to the Landry family, especially Phyllis and Lanier, whom we have known for about 25 years. We met as advocates for meaningful participation of families with children having special needs, especially those of color, nationally in Maternal and Child Health state and federally funded programs of the Integrated Services, and Genetics Services Branches. LaToya was still living when we met and met my daughter as well. One of the results of these efforts, in collaboration with Maternal and Child Health National Centers and national family leaders like Julie Beckett, Gail Johnson, Polly Arango and others, were policy and performance measures requiring families' input and cultural competence. Although I never met Lamar, I heard so much about him and actually spoke with him on the phone. We know family and friends will treasure the good memories as they embark on this journey of loss and that it is in God's hands. Blessings to you all, Diana and Rahel..
